Hands-On OSBI Workshop

Duration: 1 day, 8 hours
Participants: up to 3 participants
Cost: Contact Us

Description:
The workshop will demonstrate how to create formatted reports or interactive dashboards using open source BI technology.

What will you learn:
• How to layout, format and embed the report/dashboard
• How to connect the report/dashboard to the data
• How to make the report/dashboard parameterized and interactive

Outcomes:
• A working report/dashboard
• Participants will have the knowledge of how to develop additional reports/dashboards

Prerequisites:
• Source data samples
• Business or technical requirements
